LIVIN'S 10 YEAR STORY

Founded in response to a tragic suicide, LIVIN has grown significantly over the past decade, becoming a beacon of hope and resilience with no signs of slowing down.

Anniversaries are important to celebrate – whether they mark birthdays, weddings, or the lives of those lost too soon.

This event is both a moment to reflect on ten years of challenging yet meaningful work and a launchpad for the next decade of impact.

For the past ten years and into the future, we remain steadfast in our mission: **To create a future where suicide is no longer the leading cause of death among young Australians.**

OUR APPROACH TO ADDRESSING YOUTH SUICIDE

Suicide is the number one killer of young Australians, and tackling this requires a collective effort.

Create a future where suicide is no longer the number one killer of young Australians by:

- Equipping young Australians with essential prevention and early intervention education, bolstering their mental health literacy and resilience.
- Raising vital awareness and funding through advocacy and community engagement to ensure our life-empowering programs can reach and engage as many Australians as possible.

WE EDUCATE. WE MOTIVATE. WE ADVOCATE.

The percentage of people who will experience mental ill health in their lifetime. That could be the person sitting next to you right now!

On average, about 9 people die by suicide every day in Australia. That's a suicide every 2.5-3 hours.

75%

Over 75% of mental health problems occur before the age of 25.

1 in 7

One in seven young people aged 4 to 17 years experience a mental health condition in any given year.
